

What is a **Cap-a-thon?**

Collaborate and Learn to Manage Cyber Risks Facing Captives

The CCIA Cap-a-thon is your chance to participate in a one-of-a-kind, “design sprint” event where business leaders, contributors and industry experts collaborate and discuss innovative solutions for emerging cyber risks affecting your business.

Come join us for a tremendous day of networking, problem solving and learning!

Focus on Cyber Risk:

Learn how to manage current and emerging cyber risks including innovations for captive insurance entities—as platforms for risk management and risk aggregation

“Hackathon” Methodologies:

Rapidly advance concepts through a series of development stages via condensed team-based collaborative meetings

Cyber Risk Solutions:

Successfully address or manage a specific cyber risk issue, market need, and potentially a disruptive approach

Engaged Learning and Collaboration:

Professionals of all disciplines who have a stake in managing cyber risk meet and focus on the most significant operational risk of our time!

JOIN US!

October 16-17, 2018

Upward Hartford ★ 20 Church Street ★ Hartford, CT
